HAVING FUN

By order of the Queen and Great Ruler, all the two-legged residents of the our planet are now required to: *Have Fun*.

Every day is proclaimed to be "Giggle Day", and residents are required to do the following. Any found guilty of failing to do so will be sentenced to hearing jokes and being tickled with a feather:

- Share hard stuff and tears
- Laugh at ourselves
- Don't worry about others - we're enough to deal with ourselves
- Play with some kids
- See who can make up the most amazing tale
- Be honest about lying
- Dance
- Keep your twinkle
- Quit being serious
- Do something outrageous
- Perform at least three random acts of kindness and senseless acts of beauty
- Give a secret, magic, fun surprise to someone
- Think what the most outrageous fun thing you can dream up for someone, or for our community.

Joy and happiness are personal and social values – requiring only our hearts, not material consumption.
